Social Studies Assignments for May 11-15

World History, U.S. History II, and Economics are all to complete the same assignment for the week of May 11-15:

All students keep a brief daily log of your activities during this time of quarantine, research and briefly summarize a daily world current event, national current event, and state current event. Online students may e-mail the assignment daily, or one time at the end of the week. Paper packet students turn in as you usually do. Do not make this assignment complicated, as it is not intended to be difficult.
